This product was independently tested by Lucideon to park homes specification

InstaClad Park Home System – an innovation in insulation

After years of research and extensive testing and development, InstaGroup – the insulation experts – can now offer a major innovation specifically designed for park homes.

The InstaClad Park Home System is a specialized adaptation of our industry acclaimed all-weather solid wall insulation. It not only insulates, it completely renovates. It has a quality assurance guarantee of 25 years.

The InstaClad Park Home System

- New all-weather system means straightforward installation in all weathers, including showery or cold conditions
- Minimal disruption for residents, and minimal delays for installers
- Rail frame, tongue and groove EPS insulation boards plus top coat
- Robust yet light solution refurbishes exterior walls - highly recommended for older park homes
- Faster completion times and lower onsite costs
- Works with InstaGroup's under floor and roof insulation for maximum results

For a warmer, upgraded home and reduced fuel costs

If you're living in a poorly insulated, older park home you'll know better than anyone how cold and draughty it can be. You'll also know how high your fuel bills can get when you have to rely on expensive LPG and electricity for your heating.

But with the new InstaClad Park Home System, it's never been easier to benefit from a warmer home and huge energy savings whilst completely refurbishing your property.

InstaClad Park Home System – the advantages

- ✓ Save over £325* a year on energy bills if you use mains gas for heating. Savings on LPG or oil fuel bills are even higher.
- ✓ New 'all-weather system' can be installed all year round – minimal delay and disruption so the job is quickly completed
- ✓ Fast drying, fast finish, reducing any inconvenience to you during installation
- ✓ New frame, board and render finish adds robustness and stability and improves the appearance of your park home.
- ✓ Does not breach the jointing strip
- ✓ Keeps your home warmer in the winter and cooler in the summer
- ✓ Improves sound-proofing – system reduces external noise
- ✓ Light and slim highest quality insulation is also impact-resistant
- ✓ A1 fire-resistant
- ✓ Access to funding and government grants available through InstaGroup and the Snug Network

*£326.40 annual bill saving for a 86m² park home built 1983-1995 without modifications on mains gas for heating and 100mm existing loft insulation (£184.37 walls, £77.59 floor and £64.44 loft savings)

The expert solution for park homes

Specified with 100% confidence for a superior result for park homes.

- Supports energy efficiency and cuts CO₂ emissions
- Instantly improves park home appearance
- Enhanced weatherproofing qualities
- Excellent sound-proofing properties
- This product was independently tested by Lucideon to park homes specification

From industry experts InstaGroup

The InstaClad Park Home System is patented and manufactured by industry leaders InstaGroup.

InstaGroup has been an insulation systems designer for over 30 years. We continually research, develop, invest in, test and manufacture insulation solutions to meet today's needs. We create pioneering products for the market's changing requirements, including innovations such as our new party wall insulation system.

We are trusted to deliver consistent, high quality results to over 500,000 homes and businesses across the UK every year.
