

InstaGen Monitoring Platform Introduction

01 Overview

SCALINTEG

InstaGen Monitoring Solutions

InstaGen Cloud

InstaGen Cloud is Insta's self-developed official monitoring platform for end-users and distributors to monitor and manage their devices and plants. It features rich functions such as 24-hour load monitoring and devices and plants management, remote configuration and upgrading, organization management, alarms information, etc.

<https://www.insta-cloud.co.uk/>

InstaGen APP

InstaGen APP has the portable version of the platform, allowing people to install it on their phones for monitoring and management of their devices and plants anytime, anywhere.

02 InstaGen Cloud

SOLINTEG

InstaGen Monitoring Platform

Sign-in Page

- Choose the language
 - Create an “Owner Account”
-

Plant Page

- Create a new plant
 - View Plant’s Real-time Generation & Consumption
 - Add devices to plant
 - View Device Data & Export a Data Report
-

Device Page

- Configure the device
 - View the device log
 - Remote upgrade firmware
-

Alarm Page

- View the detailed information on alarms
-

Report Page

- Export a plant data report
-

Manage Page

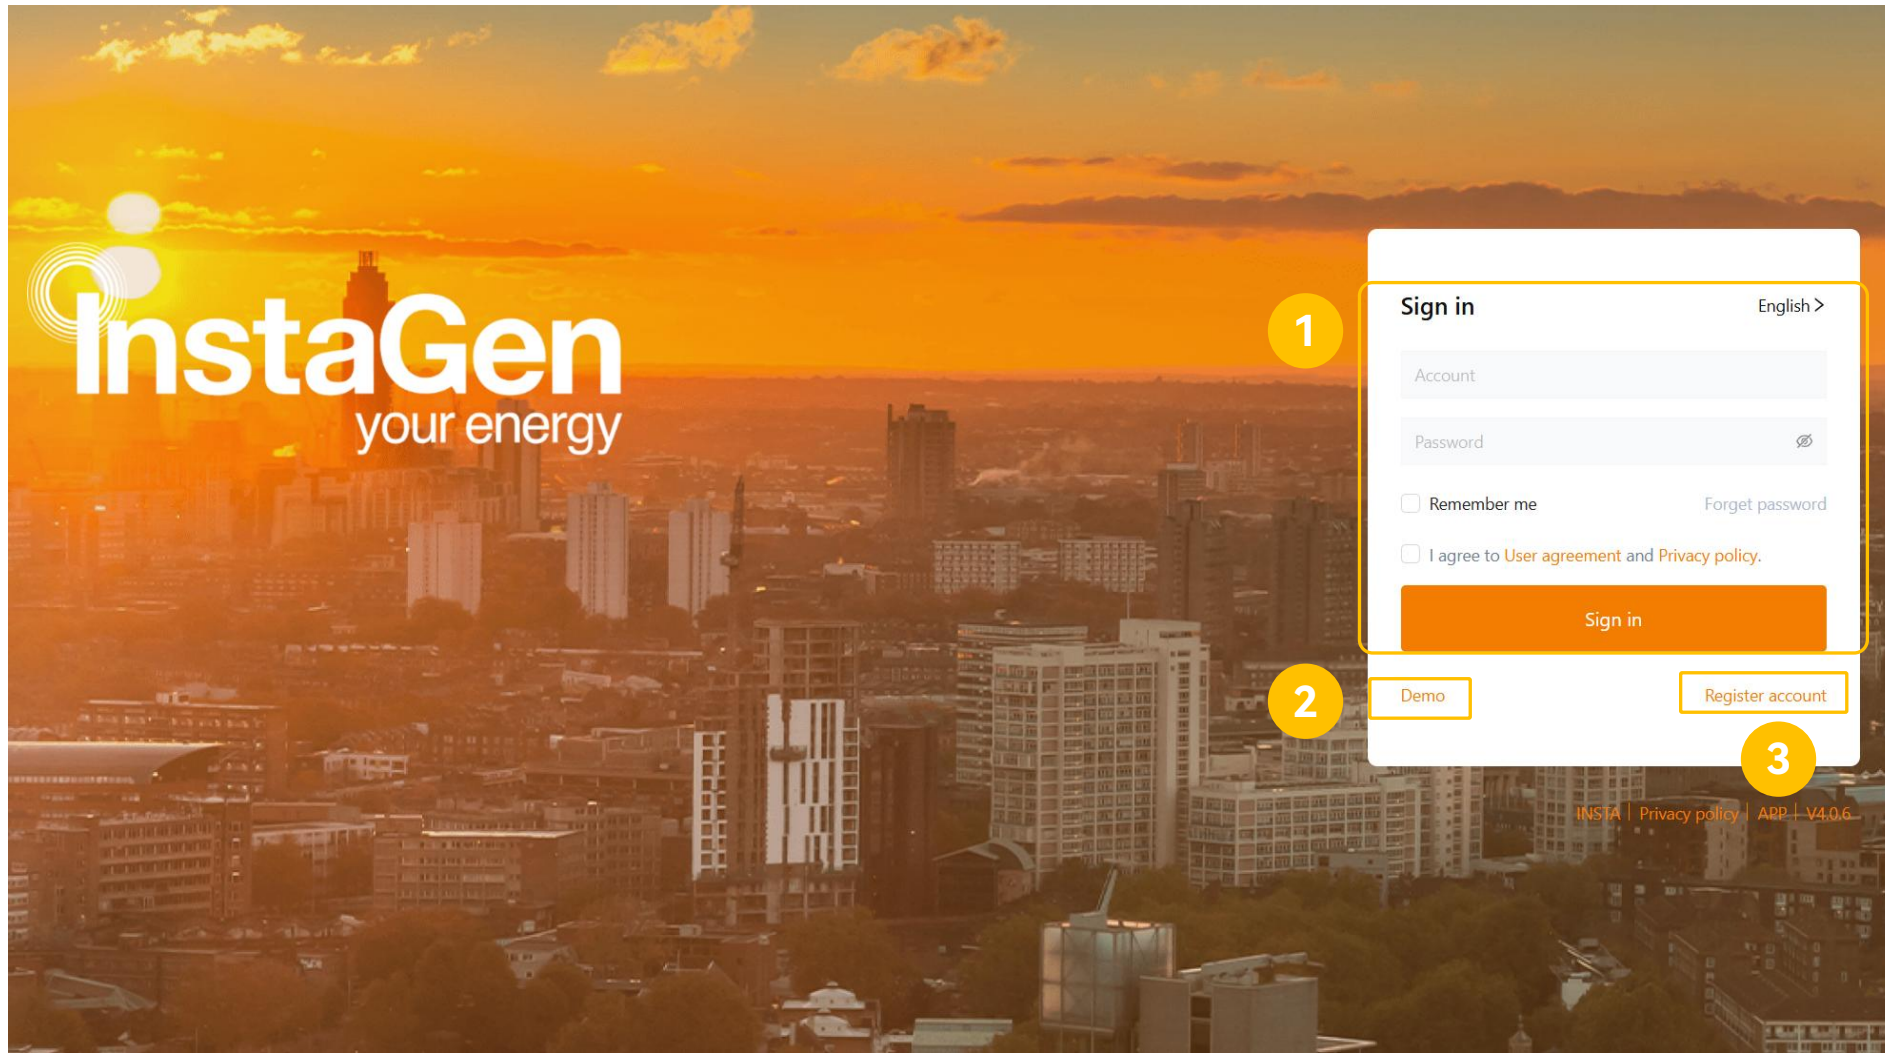

- Create a subordinate organization account
 - Create an internal account & limit the scope of jurisdiction
 - Set the push method of alarms
-

- Feedback Function

InstaGen Cloud 21 Main Pages

SCALINTEG

Main Page - Sign-in Page

- ① Sign in by account and password.
- ② InstaGen Cloud provides a demo account. Users can directly access the platform and experience its basic functions through the demo account.
- ③ Owner users can through the sign-in page to create the owner account.

Main Page - Plant Page

The screenshot shows the 'Plants' management page. At the top, there is a summary dashboard with four cards: 'Current power(kW)' (0.00), 'Production today(kWh)' (0.00) and 'Production total(MWh)' (1.25), 'Revenue today(€)' (0.00) and 'Revenue total(k€)' (1.25), and 'System capacity(kWp)' (7.00) and 'Battery capacity(kWh)' (7.50). Below this is a filter bar with 'All(1)', 'Normal(1)', 'Abnormal(0)', and 'Offline(0)'. A search bar is located above a table of plants. The table has columns for Status, Plant name, Address, Electricity production per kW, Current power, Daily production, Last update time, Capacity, Grid connection time, Plant type, and Operate. One plant is listed: 'TestEVcharger' with address '374 933/7, 614 00 Brno-Maloměřice a Obrány, Czechia', production '0.00 kWh/kWp', current power '0.07 kW', daily production '0.00 kWh', last update '14:57:55 2024.12.02', capacity '7.0 kWp', and grid connection time '2024.05.16'. A 'New plant' button is in the top right. A detailed view of a plant is shown at the bottom, with callout 5 pointing to it. Callout 6 points to the 'Operate' column of the table.

- ① Power plant system performance by different counting periods.
- ② Quickly distinguish between power plants that are normal operating, abnormal, and offline.
- ③ Through this button can create a new plant.
- ④ Search for power plants through plant name, owner email, organization name, and advanced filtering options such as plant type, capacity, and grid connection time.
- ⑤ Detail information about the plant.
- ⑥ The operations that can be performed on a power plant, from left to right, are as follows: Modify, to modify the plant information; Devices, to redirect to the devices page; Delete, to remove the power plant.

Plant type: All C&I Plant Residential Plant Utility Plant

Capacity: kWp - kWp

Grid connection time: →

Main Page - Devices Page (Device list)

The screenshot displays the InstaGen web interface for the 'Devices' section. The left sidebar contains navigation icons for Plants, Devices, Alarm, Reports, and Manage. The main content area is titled 'Devices > Device list' and features a search bar with filters for organization, plant name, device type, and device model. A table lists various devices with columns for status, SN, superior device, name, plant, type, model, location, and firmware version. Callouts 1-4 highlight specific UI elements: 1. The left sidebar menu; 2. The search filters; 3. A device row in the table; 4. The 'Operate' column dropdown menu. Below the table, dropdown menus for 'Device type' and 'Device model' are shown, along with an organization selection dropdown.

St...	Device SN	Superior device	Device name	Plant name	Device type	Device model	Remote - Lo...	Slave firmware versio	Operate
	A1	--	Logger #1	Solinteg Wuxi Hybrid Plant #1	Collector	Logger1000	--	--

	51	42%	Sacharčuk_Malešovice	Plant #6	Hybrid Inverter	6.0K-25A-3P	WIFI-/	V01.00.00.00-V22.46.0	

- ① The Device Page has two sub-interfaces: "Device List" and "Firmware Upgrade". The current page is "Device List".
- ② Conduct searches by using various criteria such as the organization they belong to, the plant they are associated with, the device name, the type of device, and the model of the device.
- ③ Devices list and detailed information.
- ④ Operations of device - configure and device log.

Main Page - Devices Page (Firmware upgrade)

The screenshot shows the InstaGen interface for the 'Firmware upgrade' section. On the left is a dark sidebar with navigation icons for 'Plants', 'Devices', 'Alarm', 'Reports', and 'Manage'. The main content area has a breadcrumb 'Devices > Firmware upgrade' and a search bar with fields for 'Start date', 'End date', 'Operator', and 'Device SN'. Below the search bar is a table of upgrade records. A table header row is highlighted, and a 'Firmware upgrade' button is visible in the top right of the table area. At the bottom right, there is a pagination control showing '20 / page'.

Operator	Firmware version	Creation time	Execution method	Status	Executic	Operation source	Operate

- ① The Device Page has two sub-interfaces: "Device List" and "Firmware Upgrade". The current page is "Firmware upgrade".
- ② Search for historical upgrades through start&end time, operator or device SN code.
- ③ Detail information on historical upgrades or scheduled upgrades.
- ④ Operations for upgrades. From left to right, detail information, refresh and delete.
- ⑤ Through this button to arrange firmware upgrades.

Main Page - Alarm Page

The screenshot shows the Alarm Page interface with the following components and callouts:

- 1**: Filter tabs for 'Current(1)', 'Historical(6)', and 'All(7)'. The 'Current(1)' tab is selected.
- 2**: Search filters including 'Please select organization', 'Plant name/SN/Owner email', 'Start date', and 'End date'. There are 'Search' and 'Reset' buttons and an 'Advanced filtering' dropdown.
- 3**: A table listing alarm details for 'Demo#4'.
- 4**: An 'Open' button (represented by a magnifying glass icon) next to the alarm entry.

Plant name	Device name	Device SN	Device type	Alarm type	Alarm name	Alarm status	Generation time	Open
Demo#4	#2	A21230012053004A	Hybrid Inverter	Protection	Batt.Voltage Fault	Current alarm	09:41:18 2024.02.06	

Organization Selection:

- Please select organization
- Demo Manager
- Demo account

Alarm Type Selection:

- Protection: Batt.Voltage Fault, BAK Voltage Fault, Bus Voltage Lower, BMS Comm Fault, Sys Hardware Fault, BAK Over Power, Inverter Over Voltage, Inverter Over Freq, Inverter Over Current, Mains Lost, Grid Voltage Fault
- Fault: CP Error, N-PE Check Fault, SPI Fault, E2 Fault, GFCI Device Fault, AC Transducer Fault, Relay Check Fail, Internal Fan Fault, Emergency button has been pressed, Communication Fault with Inverter, Over Current, Grounding Fault, GFCI Protection, Charge Port Door Open, Relay Sticking, Over Voltage, Communication Fault of All DC Power Modules, Under Voltage, Over Temperature, Meter Error, Other Faults, FLASH Fault, SCI Fault, External Fan Fault, Meter Comm Fault

Calendar: Apr 2024 / May 2024. Current date: 24.

Page Info: 2 in total, 1 / page, 20 / page

① View current, historical, as well as all alarm messages.

② Search for alarm through organization name, plant name, time, and it also supports searching for alarm through more detailed protection or fault names.

③ Detail information of alarms.

④ Through this button can view more detailed information of the alarm, including possible causes and repair suggestions.

Main Page - Report Page(Plant report)

The screenshot shows the InstaGen web interface for a plant report. The left sidebar contains navigation icons for Power station statements, Plants, Devices, Alarm, Reports, and Manage. The main content area is titled 'Report > XXXXXXXX' and includes a search bar, a filter menu (Monthly, Annual, Total, Customize), and an Export button. Below the filter menu is a 'Select a template' button and a date selector (2024-03). The main table displays energy production and consumption data for the period 2024-03-01 to 2024-03-15. A 'Plant info' section on the left provides details for the selected plant, Solinteg#1, including its type (Residential Plant), capacity (120 kWh), and battery capacity (100 kWh). A 'General / Concurrent' toggle and a chart icon are also visible.

Date	Production (kWh)	Consumption (kWh)	Export energy (kWh)	Import energy (kWh)	Revenue from elec
2024-03-01	3.3	3.3	3.3	3.3	3.3

Plant type Residential Plant

Capacity (kWh) 120

Battery capacity (kWh) 100

- ① The Report Page has two sub-interfaces: "Plant report" and "Export records". The current page is "Plant report".
- ② Search for and view subordinate power plants.
- ③ Display the detailed information of the selected plant.
- ④ Click here can select the time dimension for statistics - monthly/annual/total/custom.
- ⑤ Click here can choose the items to report through a template and also select the time period for the statistics.
- ⑥ Can choose "General" or "Concurrent" statistical method.
- ⑦ Can switch between the table and bar chart display methods.
- ⑧ Detail information of the report.
- ⑨ Export the report.

*The page may change with updates, please refer to the actual website for the latest version.

- ① The current page is "Export records".
- ② Search for reports through report name and generation time.
- ③ Detail information of reports.
- ④ The operation for reports, including re-generate, download, and delete.

*The page may change with updates, please refer to the actual website for the latest version.

Main Page - Manage Page(Organization)

The screenshot shows the 'Manage > Organization' page in the InstaGen application. The interface is divided into several sections:

- 1**: A dark sidebar on the left contains navigation icons for 'Plants', 'Devices', 'Alarm', 'Reports', and 'Manage'. The 'Manage' icon is highlighted with a yellow circle.
- 2**: A search bar at the top left of the main content area, labeled 'Username/Email address/Organization code', with a magnifying glass icon and a plus sign to its right.
- 3**: A plus sign button located to the right of the search bar, used for creating a new organization.
- 4**: A list of organizations, currently showing one entry for 'InstaGen'.
- 5**: A section titled 'Organization information' displaying details for the selected organization: Group name (InstaGen), Contact person (Bruce Allen), Contact email (Bruce.allen@instagroup.co.uk), Country/Region (United Kingdom (United Kingdom)), Organization code (DB249328), Creation time (16:50:21 04.09.2024), and Address (Insta House, Ivanhoe Road, Hogwood Business Park, Berkshire, Wokingham). An 'Edit' button is located to the right.
- 6**: A section titled 'Internal account' displaying a table of users. The table has columns for No., Username, Email address, Role, and Operate. Two users are listed: 'Demo user' (Role: Super Administrator) and 'TEST' (Role: Super Administrator). A '+ Add' button is located to the right of the table.
- 7**: A context menu (dropdown) that appears over the 'Operate' column of the table, containing icons for edit, reset password, and delete.
- 8**: A plus sign button located to the right of the context menu, used for adding a new internal account.

At the bottom right of the main content area, it says '2 in total'.

- ① The Manage Page has three sub-interfaces: "Organization", "Owner" and "News Center". The current page is "Organization".
- ② Search for an organization by username, email address or organization code.
- ③ Through this button can create a sub-account.
- ④ Display various organizations and their affiliations.
- ⑤ Display the information of the organization.
- ⑥ Display the internal accounts under this account.
- ⑦ Modify/Reset password/Delete.
- ⑧ Through this button add a new internal account.

Main Page - Manage Page(Owner)

The screenshot shows the 'Manage > Owner' page in the InstaGen application. The interface includes a dark sidebar on the left with navigation options: Organization, Owner, Feedback, and Notifications (all under a yellow callout '1'); Plants; Devices; Alarm; Reports; and Manage (highlighted with a yellow callout '1'). The main content area features a search bar (callout '2') with 'Username/Email address' and buttons for 'Search' and 'Reset'. Below the search bar is a table of owner users (callout '3') with columns for No., Userna..., Email address, Plant guests, and Operate. The Operate column contains icons for edit, reset, and delete (callout '4'). The table lists four users. At the bottom right, there is a pagination control showing '4 in total', a page selector with '1' selected, and '20 / page'.

No.	Userna...	Email address	Plant guests	Operate
1	dem...	...com	--	[edit] [reset] [delete]
2	61...	...com	1	[edit] [reset] [delete]
3	pe...	...mail.com	--	[edit] [reset] [delete]
4	uct...	...arcuk.cz	--	[edit] [reset] [delete]

① The current sub-page is "Owner".

② Search for owner users by username and email address.

③ Display the information of owner users.

④ Operations to the owner account, from left to right, are: modify - change the email address, reset the password, and delete the owner user.

Main Page - Manage Page(News Center)

The screenshot shows the InstaGen Manage Page (News Center) interface. The left sidebar contains navigation options: Organization, Owner, Feedback, Notifications, Plants, Devices, Alarm, Reports, and Manage. The main content area displays a list of notifications under the 'Alarm' tab. A search bar and 'All read'/'Manage' buttons are located above the list. A 'Set' button is visible in the top right corner.

Alarm Name	Plant Name	SN	Alarm Status	Time
Meter Comm Fault	楼顶50K	A112300106632049	Fault	11:08:13 24.04.2024
BMS Comm Fault	楼顶50K	A112300106632049	Protection	11:08:13 24.04.2024
BMS Comm Fault	充电桩模拟	A11230010203004C	Protection	19:22:19 10.04.2024
Mains Lost	充电桩模拟	A11230010203004C	Protection	18:34:23 10.04.2024
Meter Comm Fault	充电桩模拟	A11230010203004C	Fault	18:34:23 10.04.2024

① The current sub-page is "Notifications".

② Notifications are divided into alarms and system messages.

③ Through this button set the push method of alarms.

④ Search for notifications, as well as batch mark them as "All read" or batch delete notifications.

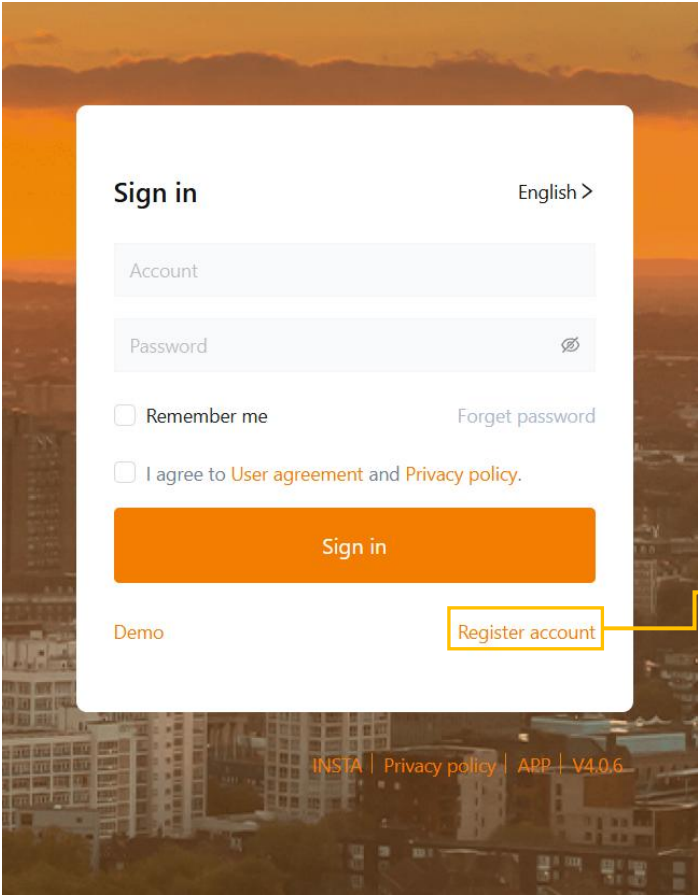

⑤ Notification list.

InstaGen Cloud Main Functions

SOLINTEG

Create an Owner Account

Method 1: Created by owners' self

Owner users can register for an owner account on the sign-in page using their email address.

Distributors and installers need to use organizational accounts, which cannot be created here.

The image shows a registration form for an 'Owner user'. It includes a back arrow, the title '< Owner user', and the following fields: 'Email address' with a 'Please enter' placeholder; 'Verification code' with a 'Please enter the verification code' placeholder and a 'Get code' link; 'New password' with a 'New password' placeholder; and 'Confirm password' with a 'Confirm new password' placeholder. At the bottom, there is a checkbox for 'I agree to <User agreement> and <Privacy policy>' and a grey 'Register' button.

Create an Owner Account

Method 2

Distributors or installers can create owner accounts for end users.

When a distributor or installer creates a power plant for an end user, they can directly enter the end user's email address. Once the power station is created, the initial password will be sent to the end user's email. The end user can sign into the InstaGen Cloud by the email address and initial password, without registering.

Add Devices to Plant

Select "Plants" on the left side

Status	Plant name	Address
(+)	Solinteg Wuxi Hybrid ...	中华人民
(+)	Solinteg Wuxi On-Gri...	中华人民
(+)	Plant #3	100095,
(+)	Plant #4	Dc46, Sa

Select the plant you want to add devices to and click on the plant name.

Click "Devices" at the top of page.

Next slide

"Scan devices" can automatically add devices that have a physical communication connection with already added devices, such as datalogger, charging piles, and slave inverters after master-slave parallel connection. When you add new devices to an existing system, you can use "Scan devices" to quickly add them.

"Add devices" is often used for the first-time addition of devices or for adding individual devices that do not have a physical communication connection with each other. For master-slave parallel systems, it supports the function of automatically adding slave devices when adding the master device.

Add Devices to Plant - "Scan devices" Button

When there are already devices added to the plant and there are new devices physically connected to them, you can use "Scan devices" to quickly add them.

← Overview **Devices** Alarm

Scan devices Add devices

Stat...	Device name	Device SN	SOC	Superior device	Device type	Device model	Remote - Local	Slave firmware version	Operate

Configure the Device

Grid connection parameter

Grid connection parameter is a configuration channel open to highly specialized distributors or installers, which includes professional configurations such as over-voltage and under-voltage settings, over-frequency and under-frequency settings, active and reactive power output control, various protection parameters, and low-voltage ride-through settings.

For more information, please get in touch with the after-sales technical team

Set the Push Method of Alarms

The screenshot shows the InstaGen web interface. On the left is a dark sidebar with navigation icons for Plants, Devices, Alarm, Reports, and a Manage icon. The main content area is titled 'Manage > Notifications' and has tabs for 'Alarm' and 'Systems'. A search bar with the placeholder 'Please enter content keywor...' and buttons for 'All read' and 'Manage' is at the top. A 'Set' button with a gear icon is in the top right corner. A yellow box highlights the 'Notifications' menu item in the sidebar, with an arrow pointing to the 'Set' button. Another yellow box highlights the 'Set' button, with an arrow pointing to a text box on the right that says 'Click "Set", then a new window will pop up.' The main content area shows a 'No data' message with a circular icon of a device.

Find the "Set" button.

Click "Set", then a new window will pop up.

The dialog box contains the following settings:

- Whether to push alarms: (toggle is on)
- Alarm level: Error Warning Info
- Push method: Mail Notifications
- Push language: English (dropdown menu)

Buttons: Cancel, Confirm

The option to enable or disable alarm notifications can be selected.

Set the alarm level - fault, protection or both. And set the puch method - by email, by news center or both.

THANK YOU
